

Is this the thin edge of the wedge or the crescent shaped blade of Islam hovering over our necks ?? Of course it is !!

One successful tactic that is often used by Islam is to plant a lie (the bigger the lie the better) and repeat that lie often enough until the public begins to accept it as Truth.

This issue highlights the grave danger we face here in Australia (and throughout the civilised Western World) from Muslims whose relentless, under handed plotting and machinations around the World are attempting to surplant their barbaric and evil political ideology (masquerading as a religion) over our all too tolerant Christian based society.

It is interesting to note that this lie, sown by the Australian Federation of Islamic Councils , has been given wings by the Internet and as a result more than 7 full pages of Google search engine results (that's more than 90 separate articles)– around the World – now feature this garbage as a headline.

This is despite a clear statement on May 17th, 2011 by the Federal Attorney General, Robert McClelland, in which he ruled out any chance of Sharia law being introduced to Australia.

In a statement released to the ABC, Mr McClelland said: “ There is no place for Sharia law in Australian society and the Government strongly rejects any proposal for its introduction.

Australia's brand of multiculturalism promotes integration. If there is any inconsistency between cultural values and the rule of (Australian) Law then Australian Law wins out.”

In support of Mr McClelland's statement we also wish to express our open acceptance of multiculturalism and we are happy for any peoples and ethnic groups to do whatever they wish in the privacy of their own homes – if that means grown men wearing a tea towel wrapped around your head and their women being kitted out by 'Rent-a-tent' – so be it.

But we do object to these odd behavioural customs being forced on us in public places.

Islam has many unwitting allies in their constant grab for power and domination of the World:

Firstly: The growing numbers of 'New Age' thinkers who see any form of so-called spirituality as a good thing without bothering to examine the foundation and source of that cult or medium. (eg. Tarot reading; Seances; Star gazing; Self exploration; Islam etc.etc.)

Secondly: The alarming trend of 'Political Correctness' that seeks to stifle free and honest speech. In earlier times we Australians had no trouble calling 'a spade a spade' OR an ugly, radical minority group 'ratbags and lunatics' if not Traitors.

Finally: The deep seated Apathy being displayed by the overwhelming majority of Australians –who seem ready to accept just about anything as long as it does not conflict with their Friday night football or Club activities.

Wake up Australia !! Already we have given way to many of these ridiculous Muslim demands – in our Schools (foods; teaching content; special religious provisions) – in our Shopping Centres (restricted displays of our Christian Holidays) and many other displays of Muslim Islamization of our Country – witness the numbers of Mosques springing up like toad stools and towering over our suburban landscape.

We should look with alarm at what is already happening overseas to a large number of similar host Nations.

At the start of 2007, Channel 4 in the UK screened a programme titled ‘Undercover Mosque’ which presented video clips of Muslim preachers in Britain. The preachers’ remarks incited hatred and violence against women, Jews, homosexuals and non-Muslims. However The Telegraph reported that the police and crown prosecutor, instead of investigating the Muslim preachers, investigated the television station.

In May 2008 two Christians reported being threatened with arrest if they continued to hand out leaflets promoting Christian beliefs in Birmingham. Arthur Cunningham and Joseph Abraham reported that the policeman told them that “they were in a Muslim area” and they were committing a hate crime by telling Muslims to leave Islam.

On July 14, 2008 two English schoolboys were given class detention for refusing to bow and pray to Allah in a religious studies class. One of the parents, Sharon Luinen complained to The Daily Mail: “ what got me is that they were told that they were being disrespectful.”

Finally, and probably the most damning offence against our Democratic Judeo/Christian way of life was in 2008: Both the Archbishop of Canterbury, Rowan Williams , and Nicholas Phillips, Lord Chief Justice of England and Wales suggested that the United Kingdom could consider, in the words of Phillips, ‘embracing Sharia Law’. Phillips argued that ‘There is no reason why principles of Sharia Law, or any other religious code should not be the basis for mediation or other forms of alternative dispute resolution.’

Williams commented ‘it’s not as if we’re bringing in an alien or rival system.’

What kind of dim witted jack asses are these people who would so easily hand themselves over to a Satanic ideology – without having read one page of this offensive Quaran. These people have absolutely no idea as to the implications of Sharia Law, as dictated by Muhhamad, and the subsequent domination of non-Muslims – that’s you and me !!

Quite simply it means that Infidels, that’s us and our families and friends, have absolutely no rights in Law above a True Believer – a Muslim.

The only 3 choices Sharia Law gives to an Infidel are:

1. Convert to Islam and take the Shahada oath in which one declares that there is only one God – Allah , and his messenger is Muhammad.
2. Accept a new (lower) status in the new Islamic Caliphate as a Dhimmi (2nd class citizen) and pay Jizya taxes in perpetuity in exchange for the “protection” of Islam. Of course you would lose all self respect and dignity.
3. Face the sword.

As one Bosnian Muslim famously said in 1970 as part of his ‘Islamic Declaration’ –

“There can be neither peace nor coexistence between the Islamic faith and non-Islamic social and political institutions....

The Islamic movement must, and can, take over power as soon as it is morally and numerically so strong that it can not only destroy the existing non-Islamic power, but also build up a new Islamic one.”

Alija Izetbegovic.

For these reasons we take this opportunity to say –loud and clear – to ALL Muslims who have been extended the privilege of living in this great Country of ours - Australia is a Christian Nation and our values and ethics are based on our Judeo/Christian heritage.

If you don't like that or if you find that too offensive – Go back to your own war torn and embittered villages and towns in the Middle East – Do not try to drag us into the dark and evil world of Islam.
