

Australia's culture is based on the separation of religion and state.

In contrast, Islam is **more than a religion**. It is a complete political, social, economic and legal **sharia** system. It is a **total method of control**.

Sharia includes hanging homosexuals, beating wives, stoning adulteresses to death, polygamy – men marrying up to 4 wives, as young as nine.

Islam is committed to replacing all other systems with sharia. Thus, Muslims following sharia insist that we change our Australian way of life, something not demanded by any other group.

Islamic law permits Muslims to lie to non-Muslims, even to state that they are non-believers to create the false impression that we are all the same.

“We smile in the face (of infidels), although our hearts curse them.”

Ibn Kathir commentary on the Koran (p58 “The Third Choice”, Mark Durie 2010)

This contradicts the claim that Islamic values
'are just like our Australian values'.

Ask yourself, WHY

- Islamists request that our government implement aspects of sharia, such as marriage, inheritance and finance, hence promoting a dual system in Australia. **Everyone should be under one law!**
- A growing number of Muslim men have been claiming benefits through Centrelink for multiple wives when polygamy is illegal in Australia (*Herald/Sun 5/03/2010*)
- Islamists insist on having **Muslim-only washrooms and toilets** at the airport and University campuses. eg Latrobe University
- Islamists refuse to share existing multifaith prayer rooms on University campuses, hospitals, etc
In addition to providing separate Islamic prayer rooms, Monash University has donated land to build a mosque as well as providing thousands of dollars to 'kick start' this project
- Islamists demand having halal food in public facilities
- Sharia finance is used to undermine our Australian Western-based economy
Already the National Australia Bank offers scholarships in Islamic banking; La Trobe University has launched the first ever Masters in Islamic Banking and Finance in the Australasian region; sharia finance is included in 1st year Business courses! <http://www.shariahfinancewatch.org/blog/>
- Mosques are often used for anti-Western propaganda
- Non-Muslims and women are not equal under sharia law

Look at the extraordinary influence exerted by and the concessions made, even now, to an Islamic community, which is only about 1.7% of our total population.

We must learn from overseas experiences!

Already many European cities have majority Muslim populations.

Experience overseas shows clearly that as the percentage of Muslims in the population increases, social and other problems increase, including threats of Islamic terrorism.

Recent polls show that in Britain, Europe and US nearly 50% of Muslims believe suicide bombing i.e. killing innocent people, is a legitimate way of defending Islam.

Nearly 50% of Muslims under the age of 35 want sharia law to replace the existing laws.

Think this couldn't happen here?

In Australia recently, five home-grown Muslims have been convicted of plotting terror attacks!! Where was the Muslim condemnation of this? No where! Instead their leaders proclaimed their innocence.

Non-Muslim and Muslim understanding of concepts such as 'peace' are often wildly at odds. **For Islamists peace only comes about when Islam dominates the world.**

"Islamic peace changes a free man into a slave of Allah"

Bill Warner, Political Islam, "The Enemy of Peace" 4/2/2010)

In Islamic communities criticizing Islam is forbidden and can even be punishable by death. This goes against our fundamental democratic right of **Free Speech**. For example, in Melbourne two Christian Pastors were dragged through the courts for 5 years for quoting **accurately** from the Koran.

Merely quoting and exposing these truths is now considered vilification and incitement or 'Hate Speech'. Islamists use 'lawfare' - the abuse of the law and legal systems for strategic ends - as a weapon to suppress freedom of expression.

Free speech includes the right to quote, expose and disagree with undemocratic and intolerant values

IS ISLAMISM A THREAT HERE?

**Most immigrants embrace our Australian way of life
whilst connecting with their culture.**

So why has this not happened for some Muslims?
